

Did you know 1 in 20 California jobs is in ICT, and they pay twice the average? Do you know that employers are having trouble filling all those high-paying jobs?

Information and communication technologies (ICT) is the fastest growing job sector in San Francisco. Working with computers, information, communication and digital media technologies leads to exciting, high quality jobs, lifestyles and futures!

Do you like:

- ◆ Computers
- ◆ Internet
- ◆ Teamwork
- ◆ Gaming
- ◆ Creating images
- ◆ Videos
- ◆ Broadcasting
- ◆ Sound Production
- ◆ Information Technologies
- ◆ Software
- ◆ Computer Science
- ◆ Digital Media
- ◆ \$\$\$\$

If you said yes to any of these, this is where to start!

No matter what you study, and no matter what work you pursue, ICT knowledge and skills are important success factors. Learn about ICT education pathways to develop these skills to help you succeed, no matter what you do!

To get started, Ms. Freedman in room 309.
